

Critical Infrastructure Services

Specialised design skills and services for critical
infrastructure and OT environments.

Securely Connected Everything™

We understand the criticality of securing your infrastructure.

Orro specialises in designing secure and innovative connected solutions for organisations that operate cities, campuses, building automation technologies, water pipelines, energy grids, distribution centres and transportation systems.

As technology solutions are designed and implemented for ICS and IoT projects, there is a requirement for security assessments performed by an independent 3rd party specialising in cyber security, with appropriately qualified resources.

With a wealth of industrial knowledge tailored specifically to critical infrastructure, Orro understands the challenges and demands of building world-class smart and connected networks and offer a range of services to meet your digital technology needs.

Key benefits of critical infrastructure services.

-  Robust defence for your high-risk operational environment.
-  Proven methodology for industrial network design of harsh environments.
-  Superior cyber security reporting across your PLC and SCADA environments.
-  System and industry expertise to bolster limited internal security and OT skills.

How we help you.

> ICS/OT cyber security

With a comprehensive and deep skillset in managing high-risk environments, Orro delivers expertise across ICS/OT protection, compliance, and operational disruption.

Our team of specialists deliver Zone to Zone and Purdue Model reference architectures to defend your ICS environment, keeping your operational environments safe, resilient, and secure against current and emerging cyber threats.

> Asset discovery & vulnerability

We work to understand your critical infrastructure business requirements and desired future-state to deliver a strategic maturity assessment comprising gap analysis and recommended options for the future.

Our asset discovery and vulnerability capabilities include OT, IIoT and IoT device recognition, industrial protocols across BACNET, Profitnet and Modbus, Passive Agentless, and PLC and SCADA reporting.

> ICS/OT managed services

Whether as an extension of your existing support capabilities or bolstering limited internal security and OT skills, we can enhance the security and ongoing performance of your ICS/OT environment for better outcomes.

Our ICS/OT Managed Services capabilities include asset discovery and attack surface management, comprehensive reporting, as well as system and security deviation.

> Industrial network design

Based on industry best practices, our proven methodology delivers short- and long-term strategies for resilient digital plumbing in harsh environments.

Our multi-vendor capabilities cover Ring Topologies, Converged Ethernet Architectures, Industrial Ethernet environments, and secure remote access. Our approach allows for quicker execution whilst creating your blueprint for the future.

Critical infrastructure services cover:

> Enterprise & government ICT networks

Campus, WAN, data centre, software-defined and security

> Transport infrastructure

Roads, light and heavy rail

> Utilities

Power, energy and water

> Smart & connected networks

Smart cities, manufacturing, biomedical and healthcare

> Industrial I.T. networks

OT/IT convergence for SCADA and critical infrastructure

> Education

Universities and TAFE

The future feels like this.®

We are a multi-disciplinary technology powerhouse, committed to keeping our customers secure and connected. We partner with our customers to boldly embrace the challenges of tomorrow, ignite innovation, and facilitate growth.

> **Trusted Partner**

Our customers don't just trust us to keep them productive and secure today, but to prepare them for what's next, to grow with them over time and to collaboratively shape their future.

> **Strategic Advisor**

With deep expertise in multiple facets of technology, our customers rely on us to provide them with strategic advice and guidance, helping them make smart moves towards a secure future.

> **Solution Provider**

Our versatile suite of skills enables us to tackle complex challenges for our customers, providing them with complete business solutions that draw from our vast pool of expertise and resources.

Stay connected and protected with Orro®.

Discover how we can help your business and your people with Securely Connected Everything™.
